

ACCREDITATION COUNCIL FOR PHARMACY EDUCATION
REPORT OF PROCEEDINGS
January 24-26, 2024

I. Public Interest Panel Review of Professional Degree Programs

The ACPE Public Interest Panel met on January 11, 2024, to discuss the professional degree programs scheduled for review by the ACPE Board of Directors during its January 24-26, 2024, meeting. Evaluation team reports and other materials associated with the evaluation of the professional degree programs were duly considered, and a report of the Panel's discussion was prepared and presented to the ACPE Board at its January 24-26, 2024, meeting. The Board considered the comments and recommendations of the Panel. Panel members who participated in the meeting of the Public Interest Panel were: Mary Donnelly, Tim P. Donovan, and Judy Martin-Holland.

II. Accreditation Actions for Professional Degree Programs, taken at the ACPE Board of Directors Meeting, January 24-26, 2024

A list of accredited professional degree programs of colleges and schools of pharmacy, which designates the respective preaccreditation and accreditation status of the programs and the academic year for the next currently scheduled evaluation, is posted on the ACPE web site at www.acpe-accredit.org.

Accreditation Actions

On the basis of self-studies, comprehensive and focused evaluations, communications received from the institutions, ongoing annual review of North American Pharmacist Licensure Examination (NAPLEX) passing rates, entry class size, and attrition and on-time graduation rates, as well as the comments of the Public Interest Panel, the Board of Directors determined the accreditation status of the following professional programs, along with preaccreditation and accreditation terms and conditions.

In order to be eligible for initial or continuing accreditation, the Doctor of Pharmacy program must be part of an independent College or School of Pharmacy or a College or School of Pharmacy within a University, which is regularly incorporated and is a legally empowered postsecondary educational institution. The institution housing the College or School, or the independent College or School, must be accredited by a regional accreditation agency recognized by the U.S. Department of Education, another agency acceptable to the Accreditation Council for Pharmacy Education (ACPE), or actively seeking such status and in good standing with that agency. Accreditation standards call for a College or School of Pharmacy as an organizational unit and the administrative structure of the College or School of Pharmacy must provide for a Dean, who serves as the chief administrative and academic officer. Evaluation for purposes of preaccreditation and initial or continued accreditation requires an invitation by the chief executive officer, or designate, of the institution.

An action to "affirm" implies that a previously established accreditation term has been confirmed. An action to "continue" implies that the accreditation date has been extended. The customary review cycle for established accredited programs is eight years.

The customary review cycle for new programs achieving initial accredited status is two years. The dates indicated in parentheses for each College or School are the academic year of the most recent determination of accreditation status and the academic year of the next scheduled comprehensive or focused review for determination of accreditation status, and thus define the present accreditation term for the Doctor of Pharmacy program. An (*) following these dates indicate a shortened accreditation term. The accreditation actions are as follows:

Continued Accredited Status

Appalachian College of Pharmacy

Doctor of Pharmacy Program: Accredited status continued. (2023-2024) (2031-2032)
The ACPE Board of Directors finds the Doctor of Pharmacy program to be in compliance with all accreditation standards.

Discharge of Appeal Panel

The ACPE Board of Directors discharged the Appeal Panel convened to hear the formal appeal of the Board's June 14-16, 2023, action to place the American University of Health Sciences School of Pharmacy's Doctor of Pharmacy program on Accredited with Probation status.

Review of Complaints

Seventeen complaints, with all complaints from either a student or faculty member from one of twelve accredited Doctor of Pharmacy programs, were received during the fall 2023 cycle. Following the Board's review of each complaint, one complaint is open and awaiting additional information. All other complaints have been closed based upon ACPE's investigation. The ACPE Board affirmed its policy to not investigate anonymous complaints unless there is a reason to suspect physical danger at the college/school or to the complainant.

Policy Updates

The ACPE Board of Directors approved an update to the Policies and Procedures Manual in January 2024 to update language in the annual monitoring policy, substantive change policy, and removal of probation as an adverse action. The updated manual can be found on the ACPE website at: <https://www.acpe-accredit.org/pdf/CSPoliciesandProceduresJanuary2024.pdf>.

Standards Revision

At its January 2024 meeting, the ACPE Board of Directors approved releasing drafts of Standard 2025 and the corresponding self-study rubric. The ACPE Board also authorized a period of comment on the draft standards that began January 26 and will conclude May 15, 2024. Comments can be submitted using the survey found [here](#). Additionally a series of town hall meetings will be held with various constituencies for further comment and feedback. Comments received via standards@acpe-accredit.org will also be considered.

III. Accreditation Actions for Providers of Continuing Pharmacy Education.

The ACPE Board of Directors accepted the report of the ACPE Continuing Pharmacy Education Commission at the January 24-26, 2024, meeting. Results of the evaluation of submitted applications and ACPE-accredited providers reviewed for reaccreditation by the Commission were presented to the ACPE Board of Directors in January 2024. These are depicted in these Report of the Proceedings as follows:

1.	Accreditation of New Applications.			
	Organizations seeking ACPE-accredited provider status are asked to submit an Application for Initial Accreditation. This application asks questions regarding the applicant's experience relative to areas addressed by ACPE's standards for continuing pharmacy education. Initial terms of accreditation are usually for a short term with a First Review in 1 year and a Second Review in 2 years.			
	Applicant Organization	Provider Type	State	Term
1.	University Health	Hospitals; Health Care Network	TX	2-year

2.	Submission of First Review Reports by Applicants Accredited in Fall 2022.			
	First Review Report	Provider Type	State	Second Review

3.	Submission of Second Review Reports by Applicants Accredited in Fall 2021.			
	Second Review Reports	Provider Type	State	Comprehensive Review
1.	NCODA, Inc.	National Associations	NY	Fall 2027

4.	Consideration for Continued Accreditation on the Basis of Comprehensive Reviews.				
	The submitted Self-Assessment Report undergoes a CPE Commissioner review, an internal (ACPE staff) review, an external (Field reviewer) review, a review of all records including correspondence, Activity Description Forms (ADFs), complaints (if any) and third-party comments. The Comprehensive Review for Continued Accreditation provides the basis for the ACPE Board's action to continue the provider's term of accreditation. The standard term of accreditation is six years.

Policy Updates

The ACPE Board of Directors approved an update to the Policies and Procedures Manual in January 2024 to remove probation as an adverse action. The updated manual can be found on the ACPE website at: <https://www.acpe-accredit.org/pdf/CPEPoliciesProceduresUpdatedJanuary2024FINAL.pdf>.

IV. Accreditation Actions for Joint Accreditation for Interprofessional Continuing Education™

Twelve new applicants, twelve reaccreditations, twelve progress reports, and one Reconsideration were presented for review this cycle. The decisions were presented when each of the three boards from the Accreditation Council for Pharmacy Education (ACPE), American Nurses Credentialing Center (ANCC) and the Accreditation Council for Continuing Medical Education (ACCME) convene.

ACPE made twenty-five accreditation decisions and twelve progress report decisions for Joint Accreditation for Interprofessional Continuing Education™.

Nine initial applicants achieved Joint Accreditation for Interprofessional Continuing Education. Of those, four providers need to submit progress reports within one year. Three initial applicants did not receive joint accreditation. One initial applicant who was previously accredited by one of the three founding organizations (ACCME, ANCC, ACPE) was awarded Joint Accreditation with Commendation.

Twelve jointly accredited providers were reaccredited; three providers need to submit progress reports within one year, two providers were placed on Probation with a progress report due next cycle, and two jointly accredited providers received Joint Accreditation with Commendation.

For providers who submitted progress reports: nine jointly accredited providers demonstrated that all criteria have been brought into compliance, two jointly accredited providers need to submit a progress report, and one jointly accredited provider was awarded Commendation.

The organization that submitted for Reconsideration was awarded Joint Accreditation with a progress report due in one year.

These decisions have also been made by the Accreditation Council for Continuing Medical Education (ACCME) and the American Nurses Credentialing Center. The ACCME, ACPE, and ANCC collaborate to offer a single pathway for accreditation for organizations offering interprofessional continuing education (IPCE).

V. Continuing Professional Development (CPD)

The ACPE Board of Directors approved an ACPE Accreditation Framework for a *Continuing Professional Development Program* which includes the *Criteria* for organizations to develop a *Continuing Professional Development Program, A Model for Continuing Professional Development Credit, and Policies and Procedures*. Educational webinars and workshops will be conducted; for specific information please see the website: <https://www.acpe-accredit.org/continuing-professional-development/>. Implementation of the ACPE Accreditation Framework for a *Continuing Professional Development Program* is planned for January 2024.

VI. International-Accreditation and International-Preaccreditation Actions for Professional Degree Programs based outside the United States of America and its Territories:

International-Accreditation and International-Preaccreditation Actions

On the basis of self-study reports, interim reports, evaluation visits, communications received from the institutions, as well as the comments and recommendations of the ACPE International Commission, the Board of Directors determined the International-Accreditation Status of the following professional degree programs, along with International-Accreditation Term and conditions.

In order to be eligible for International-Accreditation or International-Preaccreditation, the professional degree program in pharmacy must be part of an independent school of pharmacy, a school of pharmacy within a university, or other structure approved by the Board. The school or university must be a postsecondary educational institution that is regularly incorporated, legally empowered, and authorized to award such a degree in accordance with national and/or regional laws and regulations. The institutional environment or setting for the professional degree program must be equivalent to a university and include a mission that encompasses professional education, scholarship, research, and service. To be granted International-Accreditation, the school of pharmacy must have graduated at least one class of students from the professional degree program in pharmacy for which International-Accreditation is being applied. Evaluation for purposes of granting or continuing of International-Accreditation or International-Preaccreditation by ACPE requires an invitation by the chief executive officer or designate of the institution.

To apply for International-Accreditation or International-Preaccreditation, a school must submit an application, a self-study report of the program, and any additional materials specified by ACPE. After receipt of the application, self-study report, and other required materials, a preliminary review of the application is conducted to confirm eligibility and evaluate the application. The findings and conclusions from the review are presented to the International Commission, which in turn makes a recommendation to the Board regarding authorization of an evaluation visit. If the Board authorizes an evaluation visit, it is scheduled in accord with standard evaluation and operational procedures.

“International-Accreditation (online evaluation)” is awarded to a program whose comprehensive initial evaluation visit was conducted online. An on-site Verification Visit must be successfully conducted for the program to redesignated from “International-Accreditation (online evaluation)” to International-Accreditation.

A program applying for initial International-Accreditation may be awarded Provisional International-Accreditation by the Board if there are compliance issues. Provisional International-Accreditation is awarded for a maximum period of two (2) years; within that period, if the Criterion is brought into compliance, the program can advance to International-Accreditation.

The customary term for programs granted initial International-Accreditation is two years. The customary review cycle (period between comprehensive evaluation visits) for established internationally-accredited programs is six years. The dates indicated in parentheses for each school below are the academic year¹ of the most recent determination² of International-Accreditation Status and/or International-Accreditation Term and the academic year of the next scheduled determination of International-Accreditation Status and/or Term, and thus define the present International-Accreditation Term for the professional degree program.

¹ For consistency, evaluation cycles and academic years are named in accordance with the standard terminology used by ACPE for accreditation and international-accreditation activities and reporting. Academic years run from July 1 to June 30.

² Determination includes granting of International-Accreditation Status, a change of International-Accreditation Status, a continuation of International-Accreditation Status (new Term), and other changes of an International-Accreditation Term (e.g., shortening); it does not include affirmation of an existing International-Accreditation Status and Term.
